CAPABILITIES STATEMENT

Penrose Security has brought together an experienced team of local IT professionals with over 65 years of combined experience to serve the NM business community. We have built Penrose Security from the ground up to offer cybersecurity assessments and compliance policy/procedure development for CMMC (Cybersecurity Maturity Model Certification), NIST (National Institute of Standards and Technology), HIPAA (Health Insurance Portability and Accountability Act), Cybersecurity Insurance as well as other emerging cybersecurity certification requirements.

Let us help you navigate the sea of regulations by first pinpointing your exact position in the process via our state-of-the-art assessment technology and then walk you through developing a road map towards **compliance** and **risk mitigation**.

CORE COMPETENCIES

DIFFERENTIATORS

At Penrose Security our main offering is Cybersecurity Assessments which provide a clear picture of vulnerabilities and the risks your business may be exposed to. Subsequently we can help you get on the road to compliance and risk mitigation.
